

## BREVELLE APPOINTED STAFF EXECUTIVE FOR L-3 IS

ROBERT K. BREVELLE

**R**obert K. Brevelle has been appointed the Special Assistant to Bob Drewes. Brevelle is responsible for coordinating key initiatives of the president, spearheading special assignments, and otherwise providing support to the president.

Brevelle has been with the company for more than seven years, and has advanced through positions of increased responsibility within the Engineering and Program Management organizations. Prior to his Staff Executive position, Brevelle was a Program Manager for RC-135 programs within Tactical Reconnaissance Systems. He led multiple engineering development and contract research and development (CRAD) programs including Advanced Beamformer Receiver Processor Architecture (ABRPA) and Network Centric Collaborative Targeting (NCCT).

Prior to joining L-3/IS, Brevelle held senior engineering and project management positions at successful start-up companies including Atrana Solutions, VocalData, and SuperHighway

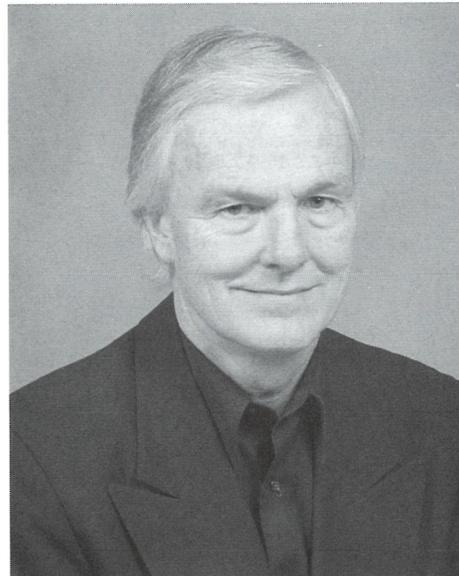

Consulting. Brevelle was also an engineering lead in the Electronic Systems segment of Raytheon Company.

Brevelle has been an adjunct faculty member since 2002, teaching graduate courses in business and engineering. He also serves in the Texas State Guard having held various command and staff positions. His most recent assignment is the Operations Officer in the Military Police Corps supporting homeland security and community operations.

In 1998, Brevelle graduated magna cum laude with a bachelor's and master's degree in Computer Science from the Illinois Institute of Technology. He earned a master of business administration degree in Operations Management from the University of Texas at Dallas in 2001. He is in the final stages of his doctorate program, and he is a credentialed Project Management Professional (PMP) from the Project Management Institute. He and his wife, Johna, reside in Garland, Texas.

## ANDERSON NAMED VP OF INTERNATIONAL SECURITY SYSTEMS

DR. RICHARD (RICH) ANDERSON

**R**epresenting an adjacent market for Integrated Systems, Bob Drewes has appointed Dr. Richard (Rich) Anderson as vice president of the newly formed International Security Systems business area. International Security Systems will pursue large-scale, integrated security systems for use in protecting vital infrastructure around the world, from government border security programs to sensitive civil infrastructure such as

which can combine data from multiple sensors of different types. With the incorporation of analytic software and other cutting-edge technology, L-3's expertise integrating large, sensor-based systems will provide the company a competitive advantage in this burgeoning market. Several existing programs currently in work for the Department of Homeland Security and other customers are being transferred to the new business area while the
