30 AUGUST 2012

e2v aerospace & defense appoints Robert Brevelle as President

e2v aerospace and defense, the leading provider of technology solutions to the US mil/aero marketplace, has announced the appointment of Robert Brevelle into the role of President. Robert will be joining e2v on 3rd September and will be based at the Milpitas, CA facility.

Robert has broad experience in leading diverse organizations in the aerospace and defense arena, and has specialized in providing Intelligence, Surveillance, and Reconnaissance (ISR) solutions.

Robert joins e2v from Advanced Reconnaissance Corporation, where he held the role of Vice President of Business Development and Marketing. He has previously been accountable for building business opportunities and strategic partnerships in the aerospace and defense industry, having held senior and executive level P&L positions at DRS Defense Solutions, Rockwell Collins, L-3 Communications and Raytheon.

Robert holds advanced degrees in computer science and engineering and a Masters of Business Administration in Operations Management.

As part of growth plans into the US mil/aero market, e2v aerospace and defense recently moved from Santa Clara to larger facilities in Milpitas, CA.

Robert brings to e2v his strong business development, project management and engineering background, aligned with his proven record of developing and implementing sound business strategies to generate growth. He will design and lead e2v's work towards developing strategic relationships and driving further growth in the US mil/aero market.
